PERSONAL STATEMENT

DevOps Engineer with close to three years of experience in cloud infrastructure, CI/CD automation, and production support for modern applications. I have a proven ability to build reliable deployment pipelines, monitor system performance, and collaborate closely with development teams to improve release efficiency and system stability. My background in product coordination and business development allows me to align infrastructure decisions with product priorities and operational goals. I am motivated to join a DevOps-focused team where I can contribute to scalable, secure, and highly available systems.

WORK EXPERIENCE

June 2023 – Present

Fullscale.ie

Dublin-Ireland

DevOps Engineer

Contributed to the development and operation of FullScale.ie, a cloud-based property-listing marketplace, as a DevOps Engineer. Focused on CI/CD automation, containerisation, and infrastructure support to enable reliable deployments and scalable application delivery. Acted as a key technical link between development, operations, and product teams across the full software lifecycle.

Responsibilities

- Designed, implemented, and maintained CI/CD pipelines using **Jenkins**, enabling reliable and automated application builds, testing, and deployments.
- Containerised applications using **Docker** and managed deployments on **Kubernetes**, improving scalability, consistency, and environment parity across development and production.
- Managed source control and collaboration workflows using **Git and GitHub**, supporting version control, code reviews, and automated deployments.
- Implemented **Infrastructure as Code (IaC)** using **Terraform** to provision and manage cloud infrastructure in a repeatable and scalable manner.
- Set up monitoring and observability using **Prometheus and Grafana**, enabling proactive system monitoring, performance tracking, and faster incident response.
- Collaborated closely with development and product teams to align infrastructure, deployment pipelines, and operational practices with product requirements and business goals.
- Managed AWS cloud infrastructure, working with EC2, S3, IAM, and VPC to support secure and reliable application environments.

June 2018 – June 2023

Chillcart Ltd.,

Dublin-Ireland

Project Co-Ordinator

At **Chillcart**, an online marketplace for grocery stores, I supported the full lifecycle of the platform's development. I coordinated project tasks, ensured clear and consistent communication, and facilitated smooth collaboration among team members to drive successful and timely project delivery.

Responsibilities

- Coordinated daily project activities for Chillcart's online marketplace across multiple partner stores.
- Supported planning, scheduling, and execution of feature releases, integrations, and onboarding.
- Communicated updates and requirements between development teams, vendors, and stakeholders.
- Monitored progress, identified risks, and recommended solutions to keep projects on track.
- Managed tasks and timelines using Monday.com, Trello, and Google Workspace.

May 2014 – June 2018

LycaTel (Ireland) Ltd.,

Dublin-Ireland

Product & Business Development Manager

Responsible for launching and establishing presence of Lycamobile Ireland in Irish market.

Expanding the company's product reach and profit revenues for newly launched Lycamobile and also developing the company's regional and national sales territory.

Responsibilities

- Engaged enterprise clients and closed multi-million-euro deals.
- Cultivate short, medium and long term prospects to assist and drive the expansion of Lycamobile.
- Provide accurate weekly reports by agreed deadlines to the top management.
- Build customer offers that maximize profitability for Lycamobile while securing new business
- Assisting tech team with field testing and dealing with other operators to resolve live issues.
- Managing the entire Lycamobile product life cycle from strategic planning to tactical activities.

Results Achieved: Increased customer base by 100% and by the end of Sep-2014 Lycamobile achieve 3.1% market share in Republic of Ireland telecoms. Please refer the below link for more information.

May 2012 – May 2014

LycaTel Distribution UK Ltd.,

London-UK

Business Development Manager

Responsible for expanding the company's product reach and profit revenues, and also developing the company's regional, national and international sales territory. On top of this in charge of increasing the company turnover by driving sales growth through new and existing customer.

Responsibilities

- Giving continuous accurate and relevant feedback to company Directors and Senior Manager.
- Ensuring that the sales database is up to date. Implementing sales and marketing strategies and plans.
- Participating in product development and design. Acting as an ambassador of the business at all times.
- Assisting in the recruitment, training and development of staff.
