TEL: +353-866005678 | Email: srinu.galla@gmail.com

PROFESSIONAL SUMMARY

DevOps Engineer experienced in building cloud infrastructure, CI/CD automation, container platforms, and monitoring solutions for production systems. Skilled in AWS, Kubernetes, Docker, Terraform, Ansible, Jenkins, GitHub Actions, Argo CD, Python, and observability tooling.

Focused on improving deployment reliability, automation maturity, and operational stability while enabling engineering teams to deliver software safely and consistently. Combines strong technical execution with prior commercial and project leadership experience, enabling effective cross-team collaboration and delivery ownership.

TECHNICAL SKILLS

Cloud: AWS (EC2, S3, IAM, VPC,EKS, ECS) , Microsoft Azure (Entra ID, Virtual Machines, Storage, Networking)

Containers & Orchestration: Docker, Kubernetes

CI/CD & Automation: Jenkins, GitHub Actions, Argo CD

Infrastructure as Code: Terraform, Ansible

Monitoring & Observability: Prometheus, Grafana

Version Control: Git, GitHub

Systems: Linux, Bash scripting, Python

Collaboration & Delivery: Agile workflows, stakeholder coordination

PROFESSIONAL EXPERIENCE

DEVOPS ENGINEER

FullScale.ie — Dublin, Ireland

Jun 2023 – Present

Cloud marketplace platform supporting production workloads

- Built and maintained CI/CD pipelines using Jenkins and GitHub Actions to automate build, test, and deployment workflows
- Implemented GitOps-based continuous delivery to Kubernetes using Argo CD, improving deployment consistency and rollback speed
- Containerised application services using Docker and deployed them to Kubernetes environments for scalable and consistent delivery
- Implemented Infrastructure as Code using Terraform and configuration management with Ansible to provision and manage AWS resources with repeatable configuration and controlled change management.
- Developed Python automation scripts to support operational tasks (e.g., environment validation, deployment helpers, and routine maintenance)
- Managed AWS infrastructure including EKS, ECS, EC2 instances, S3 storage, IAM roles, and VPC networking configurations.
- Configured Prometheus metrics collection and Grafana dashboards to improve operational visibility and incident response readiness

Key Contributions

- Improved deployment repeatability through pipeline automation and infrastructure standardisation
 - Helped establish monitoring visibility and alerting foundations for production workloads
 - Reduced manual deployment steps by introducing container-based workflows
-

PROJECT COORDINATOR

Chillcart Ltd. — Dublin, Ireland

Jun 2018 – Jun 2023

Online grocery marketplace

- Coordinated engineering delivery activities across internal teams and external partners
 - Managed planning schedules, release timelines, and feature delivery tracking
 - Supported operational workflows and system integrations across platform lifecycle
 - Maintained project management systems using Monday.com, Trello, and Google Workspace
-

PRODUCT & BUSINESS DEVELOPMENT MANAGER

LycaTel (UK & Ireland) Ltd. — London, UK & Dublin, Ireland

May 2012 – Jun 2018

- Supported expansion of telecom services in Irish market
 - Managed enterprise customer relationships and commercial agreements
 - Worked with technical teams to resolve operational deployment issues
 - Assisted product rollout planning and regional market growth initiatives
-

EDUCATION

MBA – Marketing

University of Wales Trinity Saint David, London

BSc – Mathematics, Physics, Chemistry

A.N. University, India

Diploma in Education

D.I.E.T, Krishna District, India

DEVOPS PRACTICES

CI/CD automation

GitOps continuous delivery (Argo CD)

Infrastructure provisioning

Container deployment workflows

Monitoring and alert configuration

Production support and troubleshooting

Python scripting and automation

Secure access and IAM practices
